About Me

I'm an Interactive Designer focused on UX/UI, exploring how design and storytelling can shape meaningful digital experiences. I enjoy creating work that is simple, intuitive, and emotionally engaging, where interaction is not just functional, but felt.

Skills

Visual Design:

UX/UI Design, Web/Interaction Design, Game Design, Branding, Graphic Design, 3D Modelling

Technical & Front-End:

HTML, CSS, JavaScript, React, Phaser, Git, Node, jQuery, Bootstrap, WordPress

Tools

Figma
Adobe Illustrator
Adobe Photoshop
Adobe Premiere Pro
Aseprite
Blender
Visual Studio Code
Generative AI
Microsoft Office 365
Google Workspace

Projects

**All projects available at giartlab.ca*

Linger - 2D Web Game (In Developing)

I built a narrative-driven web-based pixel game from concept to deployment, designing the UI/UX, assets, and developing it with Phaser using HTML, CSS, and JavaScript.

Bridge - UX/UI App Design

I designed a social network app for designers and developers, creating user flows, wireframes, and high-fidelity UI mockups in Figma with a focus on web design best practices and usability.

Find Me Something to Cook - Web App

I designed and developed a Recipe Finder website app from concept to deployment, handling both UI/UX design and front-end development with HTML, CSS, and JavaScript.

Education

Saskatchewan Polytechnic (Saskatoon, SK | 2024 - 2026)

Interactive Design & Technology Diploma

An interdisciplinary program combining art and tech for contemporary digital design.
